This Week's Message from Mr. Ference

Habit 6 Synergize:

When we collectively focus on the principles of creativity, cooperation, diversity, and humility, in working together or solving a problem, we are Synergizing! We are creatively cooperating in coming up with a solution that is better than one person would have in mind.

At RESN, our teachers ask students to clarify solutions to a problem with keeping the end in mind, to value others and their points of view, and then be willing to explore alternatives.

This Synergy between students for ingenuity in solving a problem with all voices being heard.
